A beach sequence from FTWD, Why have you chosen this?

Explanation / comments / ideas

A night sky photograph featuring the Milky Way galaxy. The galaxy's core is visible as a bright, blueish-white band of stars stretching across the upper portion of the frame. The rest of the sky is filled with a dense field of smaller, fainter stars. In the lower right corner, the dark, silhouetted branches of a tree are visible against the starry background. The overall color palette is dominated by deep blues and blacks, with the white and light blue of the stars providing contrast.
